**Description**

The 4-module 108 mm distance between centers appliance box can be used for the installation of up to 4 Italian standard appliances or 2 multi-standard sockets. The large internal volume allows for the installation of any appliance. The box is composed of three assembled parts: the lower part, which snaps onto the trunking and the wall with 4 screws, and serves as an insulating base and a grid separating the various circuits. The upper part is appropriately shaped to accommodate the appliance mounting frames. The trunking cover, in addition to its protective function, gives the whole a harmonious and elegant shape.

**Etim**

**GROUP EG000006 - Installation ducts for wall and ceiling**

**CLASS EC000079 - Appliance box for skirting duct**
