Description

The 3-way junction box is an essential accessory for making T-shaped branches from the straight section of the trunking. The internal pre-cut, shaped for multiple dimensions, facilitates assembly, ensuring not only a perfect appearance but also maintaining the IP rating. It is also used for branches perpendicular to the baseboard itself or to connect the trunking to the floor. The internal grille, snap-on to the trunking and screwed to the wall, prevents any contact or overlapping of cables in the branches. Suitable for reducing from 130x28 to 70x20.

Etim

GROUP EG000006 - Installation ducts for wall and ceiling

CLASS EC001940 - Transition piece for skirting duct

Degree of protection (IP)	IP40	Material	Plastic	Material quality	Acrylonitrile butadiene styrene (ABS)
Halogen free	Yes	Impact strength	IK08	RAL-number	9001
Decoration	None	Height baseboard duct	130 mm	Depth plinth skirting duct	28 mm
With carpet border	No	Colour top cover	White	Height duct connection	130 mm
Width duct connection	28 mm	Duct connection	Mini/maxi trunking	Branch off duct connection	Centric
