Description

The 4+4 module 108.5 mm center-to-center appliance box can be used to install up to 8 Italian standard appliances or 4 multi-standard sockets. A row, with the supplied accessories, can be reduced to 3 modules. The large internal volume allows for the installation of any appliance. The box is composed of three assembled parts: the lower part, which snaps onto the trunking and the wall with 4 screws, and serves as an insulating base and a grid separating the various circuits. The upper part is appropriately shaped to accommodate the appliance fixing frames. The trunking cover, in addition to its protective function, gives the whole a harmonious and elegant shape.
