**3 WAY JUNCTION BOX 130X28 SLATE  
RAL 7021**

Trunkings > Wall and ceiling > Skirting and wall trunkings > Series 20 - trunking fittings > Junction unit for skirting trunkings

**Technical Symbols/Marks/Approvals**

**Norms**

EN 50085-1 EN 50085-2-1

**Description**

The 3-way junction box is an essential accessory for making T-shaped branches from the straight section of the trunking. The internal pre-cut, shaped for multiple dimensions, facilitates assembly, ensuring not only a perfect appearance but also maintaining the IP rating. It is also used for branches perpendicular to the baseboard itself or to connect the trunking to the floor. The internal grille, snap-on to the trunking and screwed to the wall, prevents any contact or overlapping of cables in the branches. Suitable for reducing from 130x28 to 70x20.
