Description

The 83.5 mm distance between center lines - 3 modules - wall-mounted device box can be used for the installation of up to 3 Italian standard devices. For installation with a vertical frame profile. The item is composed of four assembled parts: the lower part, which snaps onto the trunking and the wall with 4 screws, which serves as an insulating base and a grid separating the various circuits. The upper part is appropriately shaped to accommodate the device fixing frames. The trunking cover, in addition to having a protective function, gives the whole a harmonious and elegant shape. The integrated end cap allows the trunking to be interrupted without using an additional end cap.
